Workshop
registration fee
until February 15th

119 lei

after February 15th
140 lei

Please register early!

Effective Flux, a well-known Romanian consulting and training company, creates the opportunity to discover few cutting-edge technology tools for process optimization.

Join us to find out useful information on how to improve the process flow from production equipment and warehouse activities to Business Process Management and shop floor workplace.

The worldwide brands are presented by their delegates coming from Poland, Belgium and Italy, especially for this event.

Don't miss it, there are limited places!

The event is addressed to the decision makers (CEO's, COO's, Engineering Managers) from production, logistics companies and organizations interested in process optimization.
